CIVIL ACTION NO. 3:CV-12-1339

DECLARATION OF JAMES FOSNOT

1. I am currently employed by the Federal Bureau of Prisons (hereafter "BOP") as an Special Investigative Agent("SIA"), and am assigned to the United States Penitentiary, Lewisburg, PA (hereafter "USP Lewisburg"). I As a part of my duties and responsibilities, I have access to inmates' records, electronic data maintained on the BOP's SENTRY computer system, and BOP Program Statements. I certify that the Attachments referenced herein are true and accurate to the best of my knowledge.

2. My job duties include serving as the designated intelligence officer for the facility, and as such, collects, analyzes, and disseminates strategic intelligence as it relates to inmates or groups of inmates whose unique skills or illicit activities pose a significant threat to the security of the institution, the safety of staff and inmates, and the welfare of the surrounding community. My duties include collecting and analyzing operational intelligence (also known as tactical intelligence) regarding the current illicit activities of these groups and refers criminal investigations as appropriate.

3. The BOP monitors and controls the transfer, temporary release and community activities of certain inmates who present special needs for management. Such inmates are known as Central Inmate Monitoring Cases (CIM) and require a higher level of review for transfers, temporary releases or community activities. This monitoring is done to provide protection to all concerned and to contribute to the safe and orderly operation of the federal institutions.

4. CIM categories include "Separation" which includes inmates who may not be confined in the same institution (unless the institution has the ability to prevent any physical contact between the separatees). Factors to be considered in categorizing an inmate as a Separation include, but are not limited to: testimony by or about an individual provided in court, whether the inmate has exhibited aggressive or intimidating behavior towards other specific individuals in the community or institution. This assignment also includes inmates who have cooperated with the authorities in providing information about illegal activities of other individuals.

5. Another CIM category includes Disruptive Groups. Disruptive Group inmates are inmates belong to or are closely affiliated with groups (e.g. prison gangs), which have a history of disrupting operations and security of correctional institutions.

See P.S. 5180.05, Central Inmate Monitoring System (CIMS);

28 CFR 524.72 CIM Assignment Categories

6. The BOP recognizes five different Disruptive Groups: Black Guerilla Family; Aryan Brotherhood; Mexicanemi ; Mexican Mafia; and Texas Syndicate.

7. An inmate may be classified as a CIM inmate at any time by a community corrections manager or by appropriate staff in the central office, regional office or institution. Periodic reviews of CIM assignments occur at program review. When staff believes that removal or modification of a CIM assignment is appropriate the institution's case management coordinator

(CMC) and appropriate reviewing authority must be notified. An inmate may appeal the placement in a CIM category by utilizing the administrative remedy process.

See PS 5180.05, Central Inmate Monitoring System

8. The BOP also monitors inmates that are considered Security threat groups. Security threat groups can be gangs such as but not limited to: Latin Kings, Paisa, Dirty White Boys, Aryan Circle, Crips, Bloods, Black Gangster Disciples, Vice Lords. Security threat groups also include (but not limited to): inmates who are former law enforcement, sex offenders, threats to government officials, history of assault on officers and many other categories.

9. The only groups that the BOP keeps completely apart from each other are:

Mexican Mafia/Surenos from Texas Syndicate

And

Barrio Azteca from the Border Brothers

10. Records indicate Rivera was a Tango Associate at the time of the altercation.

11. Records indicate Turning Bear was not affiliated with a gang at the time of the altercation.

12. There was no reason that Rivera and Turning Bear could not participate in recreation together.

I declare under penalty of perjury pursuant to 28, United States Code, Section 1746, that the foregoing is true and correct to the best of my knowledge, information, and belief.

Executed this 27th day of February, 2013.

P5180.05 CENTRAL INMATE MONITORING SYSTEM (PS ONLY)

Starting in May of 2006, the Office of National Policy Management began reformatting policies that contain change notices. With the rapid growth in word processing and electronic distribution via Sallyport and the internet, many of these WordPerfect 5.0 documents have become unstable.

No word or substance changes have or will be made to any of these documents. To avoid confusion these documents will be re-issued electronically with a new number and new date.

Program Statement

OPI: CPD
NUMBER: 5180.05
DATE: 12/31/2007
SUBJECT: Central Inmate Monitoring
System

This is an electronic re-issuance for technical reasons only. There are no substance or word changes to the document.

1. **[PURPOSE AND SCOPE §524.70.** The Bureau of Prisons monitors and controls the transfer, temporary release (e.g., on writ), and community activities of certain inmates who present special needs for management. Such inmates, known as central inmate monitoring (CIM) cases, require a higher level of review which may include Central Office and/or Regional Office clearance for transfers, temporary releases, or community activities. This monitoring is not to preclude a CIM case from such activities, when the inmate is otherwise eligible, but rather is to provide protection to all concerned and to contribute to the safe and orderly operation of federal institutions.]

Detailed instructions and guidelines for implementation of the Central Inmate Monitoring System are contained in the CIM Operations Manual. The CIM manual is designated as "Limited Official Use Only" and shall be maintained in accordance with the Program Statement on Directives Management.

2. **PROGRAM OBJECTIVES.** The expected results of this program are:

a. Inmates who meet specified criteria will be given Central Inmate Monitoring assignments so that critical decisions about their cases are carefully reviewed.

b. Inmates who have been sentenced and have been classified as Central Inmate Monitoring cases will be notified of that fact, and the basis for it, in writing.

c. The status, identity, and location of Witness Security cases will not be improperly disclosed.

d. The institution environment will be made safer by case management decisions based on accurate information and sound correctional judgment.

e. The public will be protected from undue risk.

6. [RESPONSIBILITY §524.71. Authority for actions relative to the CIM system is delegated to the Assistant Director, Correctional Programs Division, to Regional Directors, and to Wardens. The Assistant Director, Correctional Programs Division, and Regional Directors shall assign a person responsible for coordinating CIM activities. The Case Management Coordinator (CMC) shall provide oversight and coordination of CIM activities at the institutional level, and the Community Corrections Manager shall assume these responsibilities for contract facilities.]

The Central Inmate Monitoring (CIM) Operations Manual identifies key staff who are to complete CIM certification procedures.

7. [CIM ASSIGNMENT CATEGORIES §524.72. CIM cases are classified according to the following assignments:

a. Witness Security Cases. Individuals who agree to cooperate with law enforcement, judicial, or correctional authorities, frequently place their lives or safety in jeopardy by being a witness or intended witness against persons or groups involved in illegal activities. Accordingly, procedures have been developed to help ensure the safety of these individuals. There are two types of Witness Security cases: Department of Justice (authorized by the Attorney General under Title V of Public Law 91-452, 84 Stat. 933); and Bureau of Prisons Witness Security cases (authorized by the Assistant Director, Correctional Programs Division).]

The vast majority of witness security (WITSEC) cases are those authorized by the Attorney General. Both types of WITSECs are treated similarly while in Bureau custody.

[b. Threats to Government Officials. Inmates who have made threats to government officials or who have been identified, in writing, by the United States Secret Service as requiring special surveillance.

c. Broad Publicity. Inmates who have received widespread publicity as a result of their criminal activity or notoriety as public figures.

d. Disruptive Group. Inmates who belong to or are closely affiliated with groups (e.g., prison gangs), which have a history of disrupting operations and security in either state or federal penal (which includes correctional and detention facilities) institutions. This assignment also includes those persons who may require separation from a specific disruptive group.

e. State Prisoners. Inmates, other than Witness Security cases, who have been accepted into the Bureau of Prisons for service of their state sentences. This assignment includes cooperating state witnesses and regular state boarders.

P5180.05
12/31/2007
Page 4

f. Separation. Inmates who may not be confined in the same institution (unless the institution has the ability to prevent any physical contact between the separatees) with other specified individuals who are presently housed in federal custody or who may come into federal custody in the future. Factors to consider in classifying an individual to this assignment include, but are not limited to, testimony provided by or about an individual (in open court, to a grand jury, etc.), and whether the inmate has exhibited aggressive or intimidating behavior towards other specific individuals, either in the community or within the institution. This assignment also includes those inmates who have provided authorities with information concerning the unauthorized or illegal activities of others. This assignment may also include inmates from whom there is no identifiable threat, but who are to be separated from others at the request of the Federal Judiciary or U.S. Attorneys.

g. Special Supervision. Inmates who require special management attention, but who do not ordinarily warrant assignment in paragraphs (a) through (f) of this section. For example, this assignment may include an inmate with a background in law enforcement or an inmate who has been involved in a hostage situation. Others may include those who are members of a terrorist group with a potential for violence.]

8. [CLASSIFICATION PROCEDURES §524.73

a. Initial assignment. Except as provided for in paragraphs (a) (1) through (4) of this section, an inmate (including pretrial inmates) may be classified as a CIM case at any time by a Community Corrections Manager or by appropriate staff at the Central Office, Regional Office, or institution. This initial classification is effective upon documentation in the inmate's record.

(1) Witness Security Cases. Witness Security cases are designated by the Central Office only. An inmate's participation in the Department of Justice Witness Security Program is voluntary. A commitment interview and an admission and orientation interview are to be conducted with the Witness Security inmate to ensure that the inmate understands the conditions of confinement within the Bureau of Prisons. Central Office classification of an individual as a witness security case, under either the Department of Justice or Bureau of Prisons, does not require additional review, and overrides any other CIM assignment.

(2) State Prisoners. Appropriate staff in the Central Office or Regional Office designate state prisoners accepted into the Bureau of Prisons from state or territorial jurisdictions. All state prisoners while solely in service of the state sentence

P5180.05
12/31/2007
Page 5

are automatically included in the CIM system to facilitate designations, transfers, court appearances, and other movements.

(3) Special Supervision. Placement in this assignment may be made only upon the authorization of a Regional Director or the Assistant Director, Correctional Programs Division.

(4) Recommitted Offenders. An inmate who is recommitted to federal custody, who at the time of release was classified as a CIM case, retains this classification pending a review of the CIM status in accordance with paragraph (c) of this section.

b. Notification. The case manager shall ensure that the affected inmate is notified in writing as promptly as possible of the classification and the basis for it. Witness Security cases will be notified through a commitment interview. The notice of the basis may be limited in the interest of security or safety. For example, in separation cases under §524.72, notice will not include the names of those from whom the inmate must be separated. The inmate shall sign for and receive a copy of the notification form. If the inmate refuses to sign the notification form, staff witnessing the refusal shall indicate this fact on the notification form and then sign the form. Notification is not required for pretrial inmates. Any subsequent modification of a CIM assignment or removal from the CIM system requires separate notification to the inmate.]

28 CFR 524.72 refers to Section 7 of this Program Statement.

For purposes of this Program Statement, "prompt" has been defined as within 30 days of classification.

[c. Initial Review. A classification may be made at any level to achieve the immediate effect of requiring prior clearance for an inmate's transfer, temporary release, or participation in community activities. Except for Central Office or Regional Office classification of an individual as a state prisoner in sole service of the state sentence or for classification of pretrial inmates made by designated staff at the institution, a review by designated staff (ordinarily within 60 days of notification to the inmate) is required to determine whether a sound basis exists for the classification. Staff making the initial classification shall forward to the reviewing authority complete information regarding the inmate's classification. An inmate not notified of a change in the classification by the reviewing authority within 60 days from the date of the initial notification may consider the CIM classification final. Reviewing authorities for CIM classification are:

(1) Central Office Inmate Monitoring Section - reviews classification decisions for all future separation assignments (including recommitments) for Witness Security cases and for any combination of assignments involving Witness Security cases.

P5180.05
12/31/2007
Page 6

(2) Regional Office - reviews CIM classification decisions for Disruptive Group, Broad Publicity, Threat to Government Officials, Special Supervision, State Prisoners not in sole service of state sentence and initial multiple assignments except Witness Security cases.

(3) Warden, or Designee - reviews CIM classification decisions for all separation assignments.]

Warden refers to Chief Executive Officer and includes Community Corrections Managers.

[d. Removal

(1) Because participation in the Department of Justice Witness Security Program is voluntary, such participants may request removal from this assignment at any time. Such request shall be forwarded to the Central Office Inmate Monitoring Section. Actual removal of the CIM assignment will not occur until after approval from the Department of Justice is received.

(2) The reviewing authority is responsible for determining if removal or modification of any CIM classification other than a Department of Justice Witness Security case is appropriate. The inmate retains the CIM classification pending a decision by the reviewing authority.

(3) When an inmate is removed for any reason from a CIM classification (for example, because the reviewing authority either disapproves the CIM classification or approves removal of a CIM classification based on new information), the appropriate staff member shall ensure that the relevant portions of the inmate central file are either removed or, when part of a larger document, are amended to clearly reflect removal of the CIM assignment. Staff shall notify the inmate of the decision and document any change in the inmate's record, and supportive documentation and the written basis for removal are to be retained in the inmate privacy file.]

9. [ACTIVITIES CLEARANCE §524.74

a. Except as provided for in paragraph (b) of this section, the Warden is the clearance authority on all transfers, temporary releases, community activities, and escorted trips.

b. Witness Security Cases. Central Office Inmate Monitoring Section staff shall be the clearance authority on all transfers, temporary releases, community activities, and escorted trips for Witness Security cases, except in a medical emergency. In a medical emergency, the Warden may transfer a Witness Security case to a local hospital for emergency medical care without prior clearance.]

P5180.05
12/31/2007
Page 7

The Inmate Monitoring Section, Central Office (or during non-business hours, the Central Office Duty Officer) is to be notified immediately when a WITSEC inmate receives an emergency escorted medical trip. Central Office clearance must be obtained prior to any extended period of hospitalization.

Institution authorization to proceed will be entered into SENTRY. A permanent record of the authorization is to be maintained in the inmate's central file, privacy folder.

10. PERIODIC REVIEW §524.75. The Warden shall ensure that the status of an inmate's CIM assignment is considered at each program review. When staff believe that removal or modification of the CIM classification is appropriate, the institution's CMC and the appropriate reviewing authority must be notified. Only the reviewing authority shall determine if removal or modification of the CIM classification is appropriate.]

11. APPEALS OF CIM CLASSIFICATION §524.76. An inmate may at any time appeal (through the Administrative Remedy Program) the inmate's classification as a CIM case. Inmates identified as Witness Security cases may choose to address their concerns directly to the Inmate Monitoring Section, Central Office, rather than use the Administrative Remedy Program.]

12. OPERATIONS MANUAL. Implementation procedures for CIM cases are contained in the CIM Operations Manual.

13. INSTITUTION SUPPLEMENT. Each Warden shall develop an Institution Supplement that includes local procedures and identifies staff responsible for an institution's CIM program. A copy of the Institution Supplement shall be forwarded to the respective Regional Office for approval within 120 days from the issuance of this Program Statement. The Institution Supplement shall be marked as "Limited Official Use Only."

I certify that the Attachments referenced herein are true and accurate to the best of my knowledge.

2. USP Lewisburg has a screening procedure in place to prevent staff from bringing sharpened instruments, firearms, or other hazardous materials into the institution. See Institution Supplement, 5500.11A, Entrance Procedures, page 6 (in part; this is

the only portion of the supplement that addresses x-ray and metal detector procedures for staff)

3. Inmates at USP Lewisburg (SMU Unit) are afforded the opportunity to participate in recreation five days a week, one hour a day. Separation records are used to assure inmates who are Separatees are not placed in recreation groups together. Recreation is voluntary and an inmate can refuse to participate at any time up until the time he is placed in to a recreation pen.

4. If an inmate identifies a safety concern while being moved to recreation he may be returned to his cell, placed in a holding cell or other area while the concern is looked into.
